John is a wonderful TA. Super helpful. However, there were multiple times I went in and the peer tutors were simply unable to help me because they didn't know how to do the problems. That was a little annoying.

John was an unbelievable TA. He was extremely helpful at office hours, walking line by line through the code with me and often stayed after his set times to continue working with the students. He was also a great adviser for the final project, matching my trams excitement over our project. All in all, one of the best TAs I've had.

There was no section. However, TA office hours were generally effective. Some people were hired that had not taken the course and I think that was a mistake because they do not remember doing the pssets.
